

The Pell Center

Monday, April 24, 2006 at 6:00 pm

Will Present

**Dr. Patricia
Kameri-Mbote**

**Dr. Geoffrey
Dabelko**

***“Water Woes:
The Critical Importance of Scarce Resources”***

Professors Kameri-Mbote and Dabelko will examine the increasing scarcity of water on a global scale and in particular in the horn of Africa, emphasizing how scarcity can lead communities and regions to innovation and cooperation—rather than conflict and war.

Dr. Kameri-Mbote is a Pell Visiting Fellow for 2006 and co-editor, with Pell Center Executive Director, Dr. P. H. Liotta, of the forthcoming *Globalisation and Environmental Challenges: Security in the 21st Century*.

Dr. Dabelko has, for the past two decades, facilitated dialogue among policymakers, practitioners, and scholars grappling with the complex connections linking the environment, health, population, conflict, and security. He is the co-editor of *Green Planet Blues* and *Environmental Peacemaking*.

RSVP by noon on Monday, April 24th
to the Pell Center at X-2927 or by email to pellcenter@salve.edu
