In this case and will carry out such changes in the constitution as will bring BULGARIA into the Soviet system. Therefore we cannot leave the Ministry of Internal Affairs in the hands of the Communists. I am sure that the government will receive advice from MOSCOW to back down on this question. The British and its tools - the Communists - act in the same way everywhere. According to a report [B% from a source], "KOCHENNIK"[vi] on about 6 January had a meeting with CRANE[KREJN][vii], who [1 group unrecovered] advised him to put pressure on the members of the PLADNE Group[viii], so that they, while carrying out the instructions of the MOSCOW Conference, should without fail try to get the Ministry of Internal Affairs into their own hands and thereby keep out the monopolistic influence of the Communists. Remarks: According to information from all the above-mentioned sources, the British and Americans have become increasingly active in encouraging the demands of the opposition and in this way will undoubtedly try to strengthen their influence in the country.
