

Asia-Pacific Nuclear History Institute

November 5–12, 2016 Paju Book City, South Korea

Organized by the Nuclear Proliferation International History Project (NPIHP)

Hosted by Kyungnam University's Institute for Far Eastern Affairs (IFES) and the Woodrow Wilson International Center for Scholars

Course Description

The continued proliferation of nuclear weapons is one of the most pressing security issues of our time. A deeper knowledge of the past can improve how we approach the nuclear challenges of today and tomorrow.

The Asia-Pacific Nuclear History Institute (APNHI) is an intensive, one-week immersion course in the international history of nuclear weapons in the Asia-Pacific region. This course, led by world-class historians and leading experts, will provide in-depth instruction and discussion on the evolution of nuclear technology, the origins and development of deterrence and extended deterrence theory, regional nonproliferation issues, and nuclear strategy.

The Asia-Pacific Nuclear History Institute is an initiative of the Nuclear Proliferation International History Project (NPIHP), a global network of individuals and institutions engaged in the study of international nuclear history through archival documents, oral history interviews, and other empirical sources.

Course Objectives

- Equip students with a broad knowledge base about the history of nuclear weapons in the Asia-Pacific region as well as global nuclear issues;
- Familiarize students with key concepts in nuclear history and nuclear security;
- Immerse and train students in international history methodology;
- Cultivate student skills for archival research and evaluating primary source materials;
- Expose young researchers to promising new research areas and identify fruitful areas of collaboration;
- Expand the NPIHP network of individuals committed to studying nuclear history on the basis of newly accessible archival sources and oral histories

Support for APNHI

The Asia Pacific Nuclear History Institute (APNHI) was made possible through the generous support and funding of the YoungOne Corporation, without which the Institute would not have been possible. We would also like to thank the Carnegie Corporation of New York, Korean Air, and the Korea Foundation for their significant role in providing travel and programmatic support.

Saturday, November 5

Arrivals

Morning – Afternoon — Arrival and Hotel Check-in

Evening

07:30 Welcoming Dinner General Welcome & Student / Faculty Introductions

Remarks from:

Amb. Jounyung Sun Dr. Jongdae Shin Dr. Leopoldo Nuti Dr. Christian Ostermann Kyungnam University Kyungnam University Roma Tre University The Wilson Center

Sunday, November 6
