- **Brazilian Companies in China: Presence and Experience**

Claudio Frischtak, Consultant of China-Brazil Business Council

The presentation will focus on a topic of special relevance for a deeper understanding of the bilateral relations between Brazil and China – the presence of Brazilian companies in China. Contrasting with the significant interest and participation of Chinese companies in Brazil, as confirmed by the large increase in investments announced in 2010, the presence of Brazilian companies in China is still timid; however, this presence is quite diversified in terms of segments.
