

## PAKISTAN'S INTERMINABLE ENERGY CRISIS: IS THERE ANY WAY OUT?

JULY 23, 2014

### ABOUT THE PARTICIPANTS

**JAVED AKBAR** is chief executive of Javed Akbar Associates (Private) Limited, a consulting company specializing in energy analysis and forecasting. A chemical engineer by training, he has over 40 years of experience in the fertilizer, energy, and chemical businesses, and he has held positions with Exxon and Engro. Prior to retiring in 2006, he was chief executive of Engro Vopak Terminal Limited, a joint venture between Engro and Royal Vopak of Holland.

**ZIAD ALAHDAD** is former director of operations for the World Bank. His other positions at the Bank included chief of mission in Romania and Turkey, energy advisor in East Africa and Pakistan, and energy coordinator for Central Asia. He also helped establish the global Energy Sector Management Assistance Program. Prior to the Bank, he was a senior executive in Pakistan's natural gas industry, and held senior-level positions in the country's automotive industry.

**AKHTAR ALI** is an energy consultant who focuses on energy policy, investments, and tariff issues. He is also a visiting professor of energy at Karachi's Institute of Business Management. Previously, he held senior management appointments in Pakistan's public and private sectors, including chief executive of Karachi Pipe Mills. He was also a research fellow at Harvard University's Kennedy School. His books include *Pakistan's Energy Development: The Road Ahead* (Royal Book Company, 2010).

**SHANNON GREWER** is managing director at EMI Advisors LLC, a firm that helps clients structure and execute investments in the energy sector. She is an international project finance attorney with 12 years of experience working with energy and infrastructure companies in developed and emerging markets. Her recent projects include working with U.S. companies to develop a solar project in Pakistan, and to supply coal to new coal-fired power projects under development in Pakistan.

**ROBERT M. HATHAWAY** is the Asia Program director at the Woodrow Wilson Center. Previously, he served for 12 years on the professional staff of the Foreign Affairs

Committee of the U.S. House of Representatives. His recent publications include the co-edited *New Security Challenges in Asia* (Wilson Center Press/Johns Hopkins University Press, 2013) and the co-edited *Pakistan-India Trade: What Needs To Be Done? What Does It Matter?* (Wilson Center, 2013).

**MICHAEL KUGELMAN** is the senior associate for South Asia at the Woodrow Wilson Center, where he is responsible for research, programming, and publications on South Asia. His recent publications include the edited *Pakistan's Runaway Urbanization: What Can Be Done?* (Wilson Center, 2014) and the co-edited *Pakistan-India Trade: What Needs To Be Done? What Does It Matter?* (Wilson Center, 2013). He also writes a monthly column for *Foreign Policy*'s South Asia Channel.

**ROBERT LESNICK** is senior natural gas consultant at the World Bank. He has also served as Oil and Gas Program coordinator at the Bank. Previously, he was a senior manager at ConocoPhillips. He has over 30 years of experience in energy-related private sector work, including natural gas processing and petroleum commodity trading. He has over 20 years of experience in the development of energy infrastructure projects worldwide, and has conducted business in 54 countries.

**MUSADIK MALIK** is special assistant to the prime minister of Pakistan, and serves as the premier's advisor on energy. He is the architect of Pakistan's recently developed power policy and strategy, and was federal minister for water and power in the last caretaker government. Separately, he is an adjunct professor at the National School of Public Policy in Lahore. Earlier in his career, he held senior positions with Boston Innovation Partners, CRA International, Arthur D. Little, and SRI International.

**KHALID MANSOOR** is chief executive of The Hub Power Company Limited (HUBCO), Pakistan's first and largest independent power project. He has over 30 years of experience in the energy and petroleum sectors, and his previous positions include chief executive officer of Algeria Oman Fertilizer Company, and president and chief executive officer of Sindh Engro Coal Mining Company. While at Engro, he led the development and execution of major diversification and expansion projects.

**WILLIAM B. MILAM** is a Senior Scholar at the Woodrow Wilson Center. A career diplomat, he retired from the U.S. Foreign Service in 2001, but was recalled after September 11th to help establish the multilateral mechanism for the reconstruction of Afghanistan. He was U.S. ambassador to Pakistan from August 1998 to July 2001, and is also a past U.S. ambassador to Bangladesh and temporary U.S. chief of mission in Libya. His book *Bangladesh and Pakistan: Flirting with Failure in South Asia* was published by Columbia University Press in 2009.

**NARGIS SETHI** is Pakistan's secretary for water and power. She has been a member of Pakistan's civil service for more than 30 years, and her previous appointments include cabinet secretary, secretary for the Economic Affairs Division, health secretary, defense secretary, and principal secretary to the prime minister (she is the first woman to hold the latter two posts). Her portfolios have ranged from terrorism, democracy, and devolution to economic growth, energy, and emergency preparedness.
