

East Africa PHE Network

Vision

An Eastern African region where men, women, and children are healthy, the environment is conserved, and livelihoods are secure.

The background of the slide features several decorative, concentric blue circles of varying sizes, resembling ripples in water, located in the lower right and bottom center areas.

East Africa PHE Network

Mission

Provide leadership and create partnerships to promote and support the integration of population, health, and environment for sustainable development in Eastern Africa.

East Africa PHE Network

Goals

- To **enhance the policy environment** for cross-sectoral collaboration and PHE integration in Eastern Africa
- To **enhance institutional capacity** to implement integrated PHE development strategies
- To **increase community awareness** of PHE and **enhance community capacity** to design, implement and monitor integrated initiatives

Actions for Kenya

NCAPD takes the lead in these actions:

- Conduct training in PHE to policymakers
 - Identify trainers
 - Develop training materials
- Create and disseminate PHE information
 - Identify stakeholders
 - Disseminate the Kenya policy brief
 - Write press releases and work with journalists
 - Dedicate space in the NCAPD newsletter for PHE news
- Compile data base of PHE experts

East Africa PHE Network

Statement of Support

We, the members of the East Africa PHE Network, recognize the interconnections between people and their environment and believe that PHE integration is key to sustainable development. We hereby declare our support for the PHE Network and its efforts to increase communication and collaboration between the population, health, and environment sectors in Eastern Africa.
