Infant Mortality

Infant mortality (both sexes, per 1000 births)
OECD 2012

Speaking out for nursing. Speaking out for health.

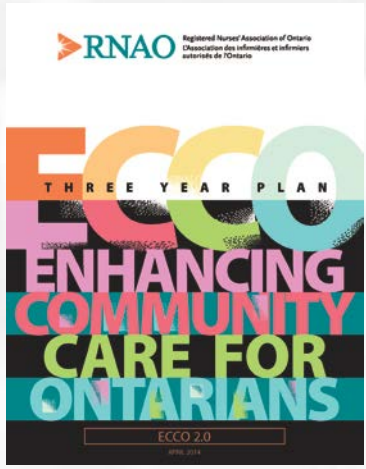

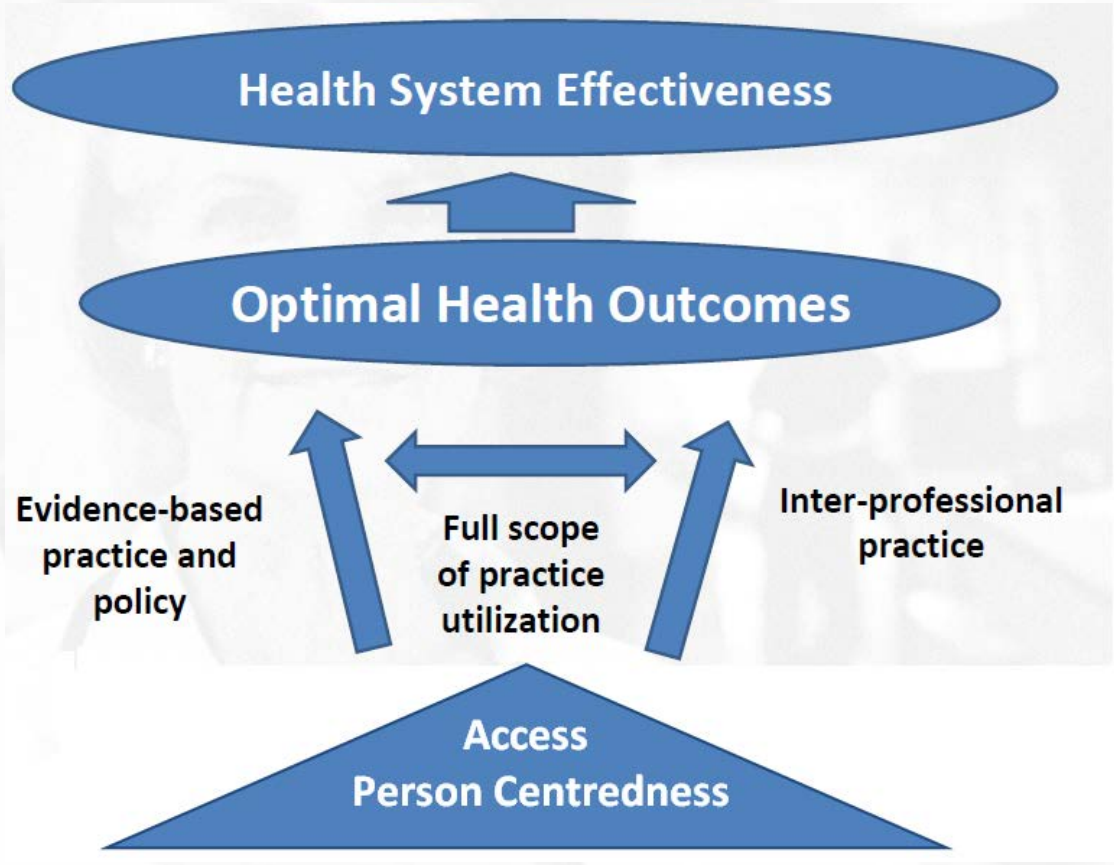

MEDICARE's PERFORMANCE:

Before Medicare (1960s) the US & Canada spent about 7% of each country's GDP in health care. In 2013...

- **Canada 10.2% of GDP** U.S. 16.4% of GDP
- **All Canadians insured** 33 million uninsured in America
(uninsured rate dropped by 2.9 percentage points in 2014 after Patient Protection and Affordable Care Act introduced)
- **Important health indicators, such as infant mortality, are better in Canada than the U.S.**
