

At the Frontline – building a coalition for local level monitoring of risk governance and resilience

Resilience Academy Capstone Conference
October 19, 2017

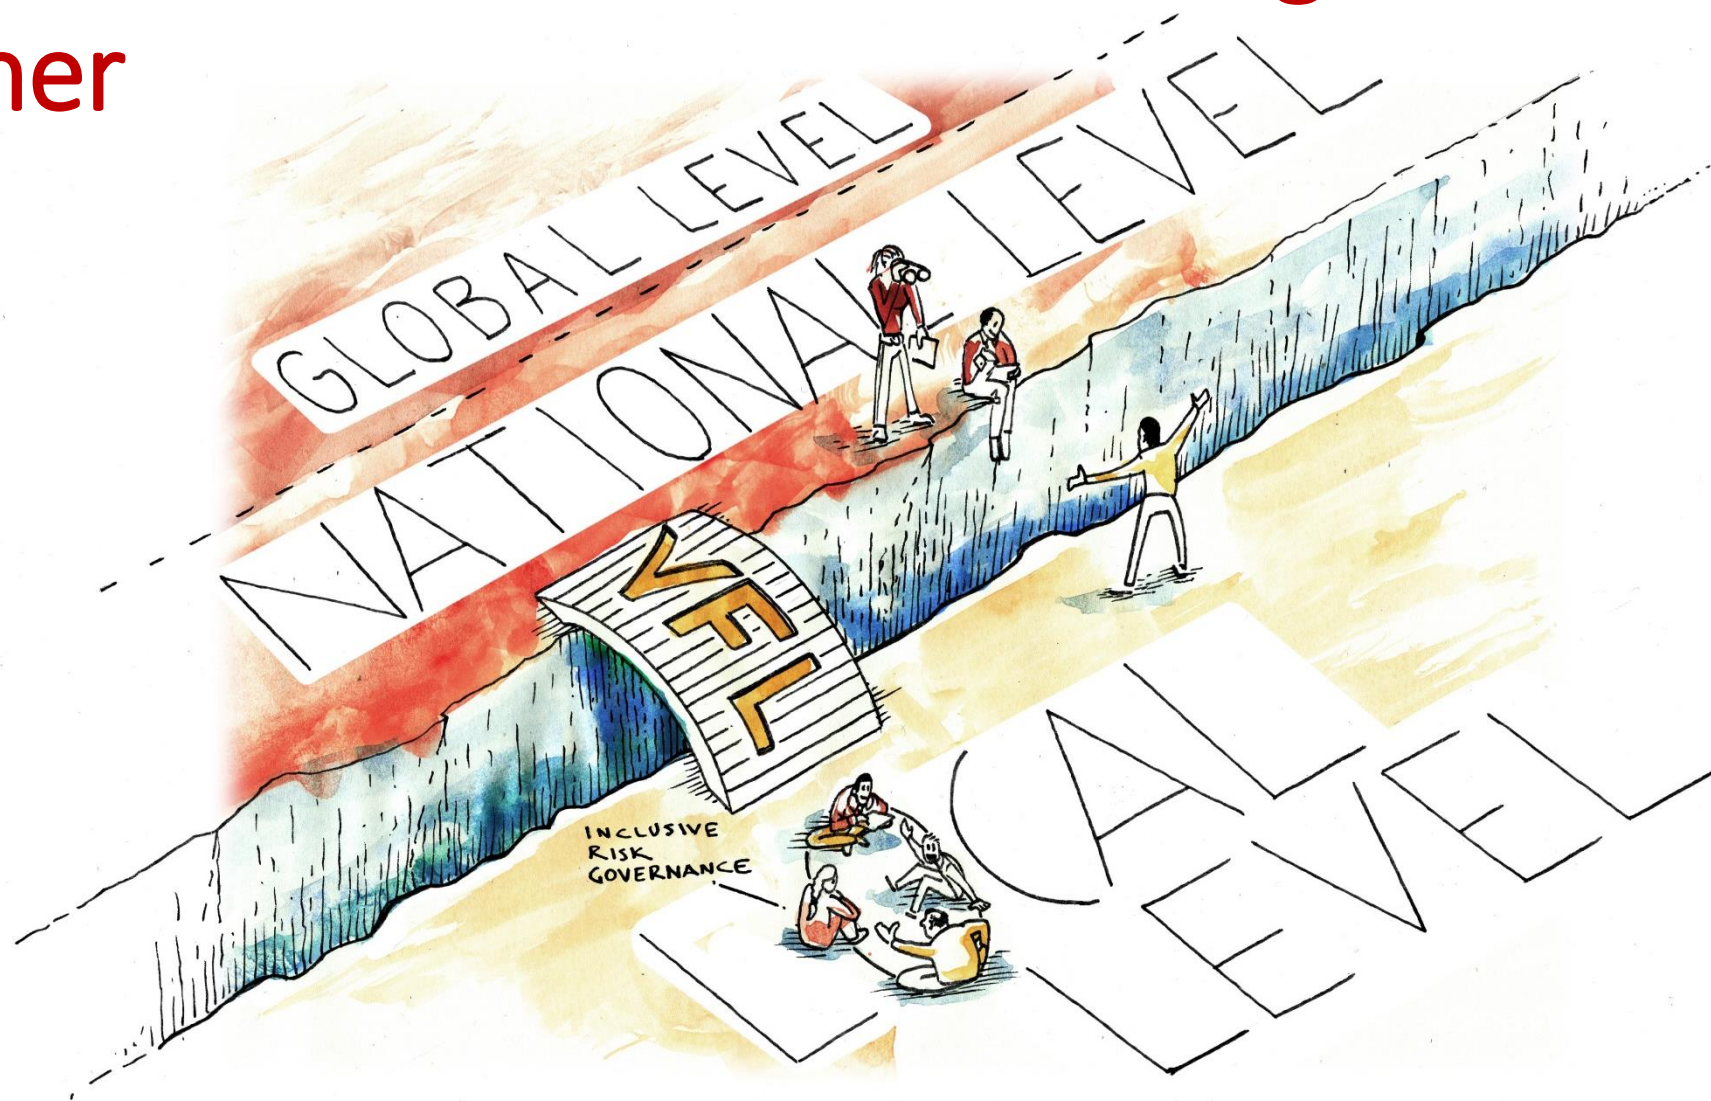

Jana Junghardt, Caritas Switzerland, jjunghardt@caritas.ch

“Any effort to reduce the vulnerability of people and strengthen their resilience must begin at the local level”

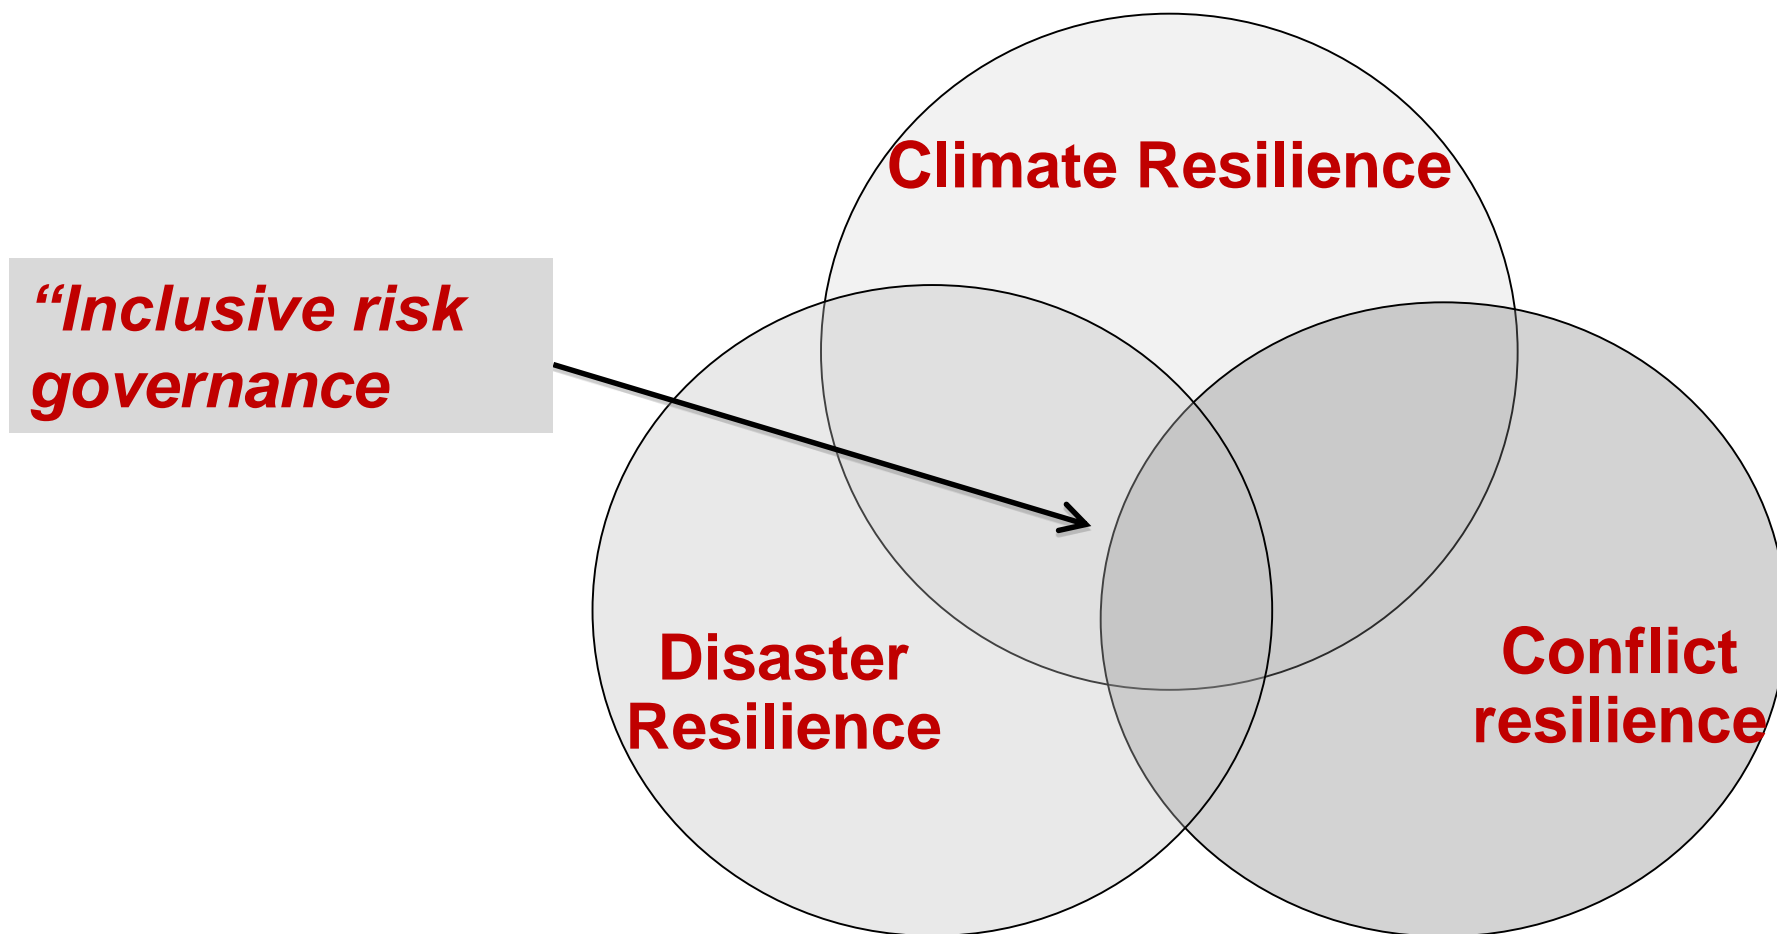

Ban Ki Moon (2016)

- 
- **The relevance of extensive disaster risk**
 - **The existing gap between national policies, existing plans and local knowledge and implementation**
 - **The striking lack of means of implementation beyond national levels**
 - **The need for citizen-generated data for corroborate or challenge official reporting**

Views from the Frontline – taking it one step further

Inclusive risk governance is central to strengthening livelihood resilience

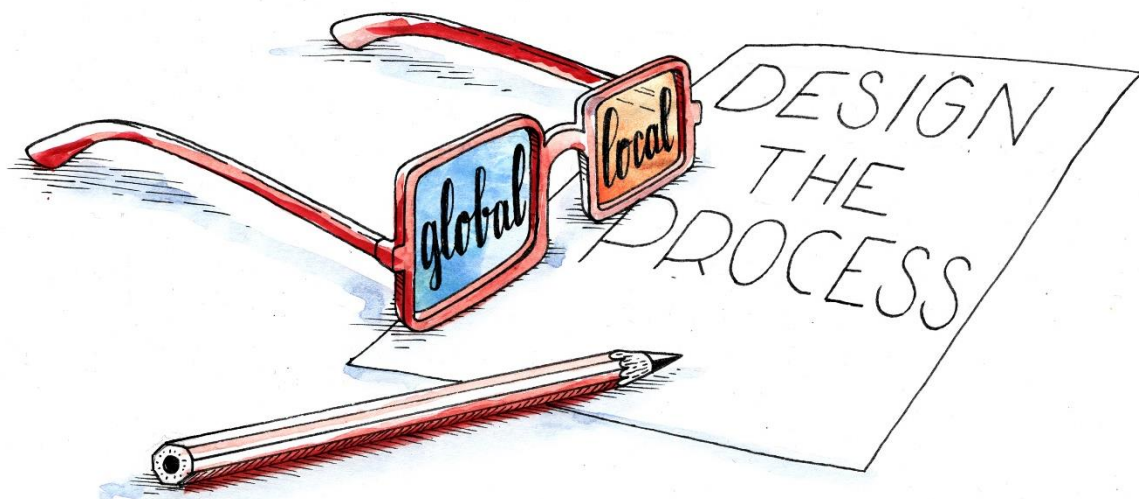

Vfl 2017 – an independent people-centered monitoring mechanism

- 
- **Contributes to local baselines for Sendai Framework, SDGs, Paris Agreement**
 - **Evidence-base to hold official reports accountable**
 - **Information generated to inform local strategies, policies and plans**
 - **Leveraged entry point for citizen engagement in policy discourse**
 - **Key informants : At-risk people; Government authorities; Civil society**
 - **Target 50 countries (UN 5:10:50 Partnership Countries)**
 - **Estimated Budget (50 countries) : US\$ 5.0 million (US \$70,000 - 100'000 / country)**
 - **Estimated implementation time frame – until GPDRB 2019**

We need you!

- Partner
- Resource Mobilization
- Knowledge Broker
- Implementer in Tonga and the Philippines

PILOT

- Connector
- Implementer
- Capacity Building
- Knowledge Broker
- Advocate
- Learning
