Work hard to find shared incentives >> these
lead to shared goals

Define the value proposition explicitly and the
conditions of the sharing in the benefits

Utilize the best existing networks
(league of municipalities, business
consortiums)

Multiple Audiences, Multiple Winners

University

(students, admin, faculty)

Real world projects

Knowledge to practice

Positive impact and image

Partners

(private and municipal)

Creativity

Entrepreneurships

Additional capacity

Risk taking

Political cover

Multiple Resources

Students as future employees

Cities as clients

Industries as employers/anchor
institutions

Or suppliers of infrastructure to smart
cities

UniverCity Alliance
